Kabaarz is a waste recycling app that innovates the existing Kabaadiwala system by providing a digital platform for the waste throwers, collectors, and recycling industry to recycle waste and earn money. The app connects the thrower to the nearest collector anywhere, anytime and at a click along with the information about the standard value of their kabaad. Moreover, it provides the Collector with the information of the Recycling Industries so he can sell the kabaad at best price to the best suited place. Making the complete Kaabad selling system smooth, quick and beneficial to all!
